Deb -

The R8 numbers in the table you share with me appear accurate (as of today, the number is 59). Also, I've attached a table with regional FY18 EOY numbers and FY19 projections. This was compiled by the Lead Region. Please let me know if you have any questions or need anything else prior to our discussion on 2/21.

Is this accurate for R8? Where do we expect to be by the end of the year? How will we explain the trend?
